

GOVERNMENT

World class
software solutions
proven for Government

CHALLENGES

Government is a multi-faceted sector that operates in a demanding and ever-changing environment. Governments are under increasing pressure worldwide to improve outcomes and increase outputs while simultaneously improving efficiencies and effectiveness.

Managing the complexities of a dispersed organisation across a range of responsibilities is a challenging task, these include:

- Providing more innovative and responsive services to constituents
- Creating a more open and accessible government
- Adhering to onerous accountability frameworks
- Responsible management of public funds
- Achieving efficiencies by reducing duplication and streamlining operations
- Increasing effectiveness by standardising best practice systems and processes
- Delivering timely, accurate and relevant internal and external reporting
- Reducing reliance on third party consultants

TechnologyOne offers fit for purpose software solutions to all levels of government that help address these changes. Our solutions help government organisations reduce costs, increase efficiency and effectiveness, and ensure that correct and up-to-date business-critical information is accessible to all stakeholders.

ENABLING GOVERNMENT

Government organisations require proven, scalable software solutions with the flexibility to adapt to the demands of the sector.

TechnologyOne solutions are flexible enough to adapt to reform and legislative change, without an ongoing reliance on third party contractors.

Our solutions can:

- Automate agency reporting
- Effectively manage ministerial correspondence
- Support the end-to-end Grants Management lifecycle
- Align and measure resources, projects and services against strategic outcomes
- Facilitate stakeholder engagement in a methodical, linked and traceable manner to ensure that government organisations optimise all relationships
- Meet stakeholder expectations for fast access to public information
- Improve efficiencies and reduce processing times via intuitive workflows, alerts and notifications
- Ensure information is secure by centrally managing electronic and paper-based records
- Consolidate organisation wide information essential for meeting internal and external reporting requirements
- Manage the approval of spending proposals and entering into contracts, with financial delegation checking and full funds control
- Provide easy to use, government driver-based budgeting and forecasting tools for devolved or centralised budgeting
- Deliver output and outcome reporting, as well as simultaneous cash and accrual accounting

SMARTER SOLUTIONS FOR GOVERNMENT

TechnologyOne's deeply integrated software solutions support end to end business processes across a range of government functions. Our enterprise solutions are designed to drive innovation, improve operational efficiencies and introduce measurable process improvement.

Whether you're focused on front or back office activities, TechnologyOne can provide proven practice solutions to assist your organisation to efficiently and effectively manage these functions.

ONE SOLUTION PARTNER

Government organisations need a reliable, accountable and experienced solutions partner with a deep understanding of the sector.

TechnologyOne has a proven track record of delivering comprehensive and deeply integrated enterprise software solutions to all levels of government for over 20 years.

Governments not only rely on us to deliver a best in class suite of solutions, but also for our significant experience and value-added implementation services, including scoping research, training, data conversion, account management, and project management.

When you invest in a TechnologyOne solution you benefit from a direct relationship with us every step of the way, as we develop, market, sell, implement and support our own solutions. We do not sell our products through resellers, nor do we use third party organisations to implement our solutions. This approach holds us accountable to our customers, whether your focus is on business needs, the underlying technology, on time on budget implementations, or excellence in support and customer services. We will be with you every step of the way.

TechnologyOne invests approximately 20 percent of its revenue each year into research and development, which allows us to respond with speed and agility to market changes and our customers' changing business requirements. We lead the market in the delivery of new technology that significantly enhances the way our government customers operate.

Why TechnologyOne as your solutions partner?

TechnologyOne provides government organisations with proven-practice software solutions, leveraging best-in-class methodologies and resources to reduce implementation risk and accelerate realisation of value.

TechnologyOne solutions support various government business processes 'out-of-the-box', enabling Government organisations to realise efficiencies by leveraging our ongoing research into the requirements of the sector. Our Government Solutions team works closely with the sector to stay abreast of current requirements and emerging trends to ensure that our solutions continue to represent proven-practice and offer a low-risk approach to an enterprise system implementation.

Other reasons to partner with TechnologyOne include:

- More than 15,000 people use our Financials solution every day.
- More than 800 organisations including councils, government organisations, large corporations, utility providers, universities and health and community service organisations rely on TechnologyOne software to improve their business performance.
- TechnologyOne's corporate headquarters is home to Australia's largest commercial R&D centre for software development.
- We partner with our government customers in research and development to ensure we design best in class, market leading solutions for the industry.
- TechnologyOne invests more than 20% of revenue in R&D to ensure our software maintains pace with changing regulatory, legislative and customer requirements.
- We have 13 offices across Australia, New Zealand and the United Kingdom and a presence in seven countries.
- We are a major, publicly listed Australian company which means we are stable, secure and growing.
- Our Connected Intelligence solution is a generation ahead of the functionality-centric ERP (Enterprise Resource Planning) applications of our competitors.

About TechnologyOne
