Blackpool Council

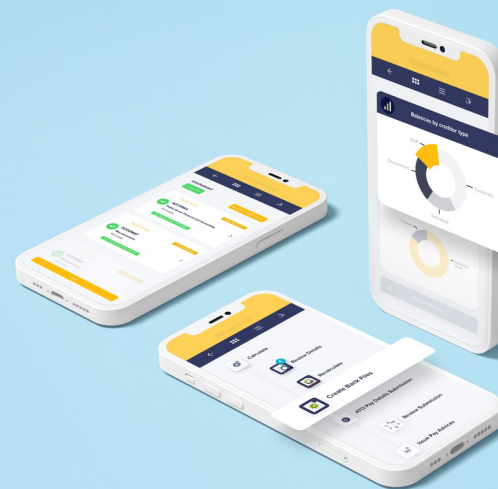

# Improve the operational health of your council

**Councils are multi-faceted organisations, often with stretched resources and budgets. While some councils opt to run disparate systems in search of a council-wide solution, this often leads to a costly, complex, siloed and inefficient operating environment.**

If you're committed to digital transformation, it's time to question whether your current approach can really deliver on this goal. In today's digital-first world, it's critical to have the right Enterprise Resource Planning (ERP) capabilities in place to run your council operations efficiently.

# Simplify the complex

**TechnologyOne's OneCouncil Software as a Service (SaaS) solution delivers a seamless and engaging local government experience. Our integrated approach to SaaS ERP enables you to consolidate your technology stack, simplify council business systems in one platform and transform your digital experience.**

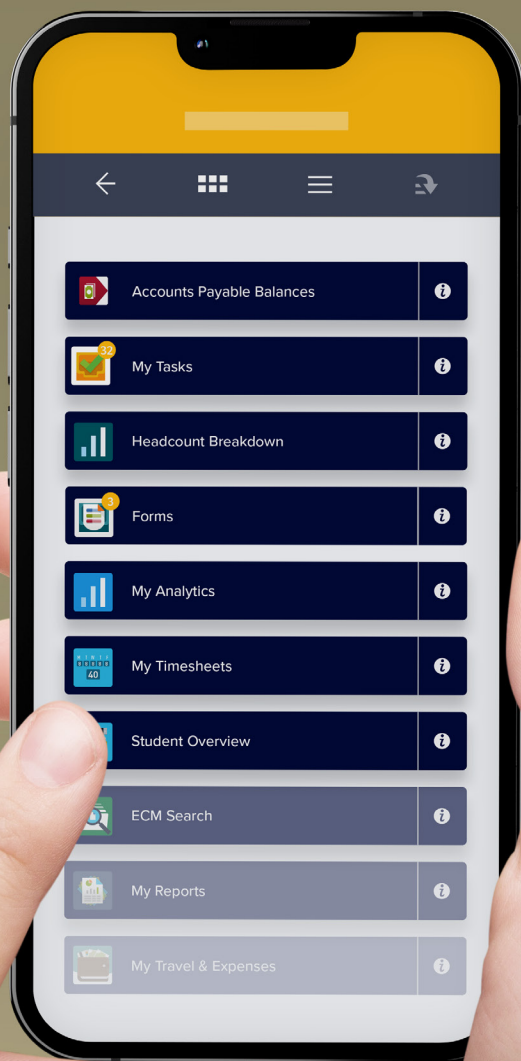

Leveraging more than 30 years' experience working with local government across Australia, New Zealand and the United Kingdom, TechnologyOne is best placed to help your council adapt to the changing

landscape and reduce your administrative burden.

We understand that local government requirements vary from council to council and provide the flexibility to adapt our solution to meet your specific needs through powerful integrations and business process automation.

Whether you're in council management or administration, you can connect through one integrated solution that's accessible on any device, anywhere, at any time.
