

ONEGOVERNMENT

# ERP SaaS for Federal, Central and State Government

technology**one**

Partnering for success

“TechnologyOne’s OneGovernment solution provides us with the capability we need, and is scalable for growth.”

## Simplify the complex

The requirement for Federal, Central and State governments to operate efficiently, securely and within budget has never been greater. At the same time, the expectation that they will continue to modernise their systems to meet citizen demand for more services, faster delivery and greater transparency is also increasing.

With more than 30 years' experience partnering with governments in Australia and New Zealand, TechnologyOne understands these demands and invests heavily in R&D to keep our customers ahead of the curve.

## Seamless service delivery

**TechnologyOne's OneGovernment Software as a Service (SaaS) solution delivers a simple, intuitive and secure government experience.**

Our integrated approach to SaaS ERP means we take complete ownership of the technology and business outcomes for our

customers, future proofing your organisation and allowing you to focus on delivering front-line services.

Our highly secure SaaS solution is available on any device, anywhere, at any time.

## Experience the OneGovernment advantage

Reduce risk, automate compliance and auditability, improve efficiency and streamline processes through end-to-end management of government operations.

## A solution built for the public sector

A proven practice solution that's specifically designed for Federal, Central and State governments to meet the unique needs of departments, agencies and government-owned corporations.

## Intuitive, engaging software

Provide easy to use, intuitive self-service access for government employees and citizens.

## Secure, reliable and scalable

Guarantee the privacy of your data by partnering with Australia's most trusted SaaS ERP provider.

# Take a closer look at OneGovernment

TechnologyOne software is trusted by 1 in 4 public sector organisations across Australia and New Zealand. Our global SaaS ERP solution supports the day-to-day operational and strategic requirements of governments in a single integrated solution.

ONEGOVERNMENT

# Corporate strategy and planning

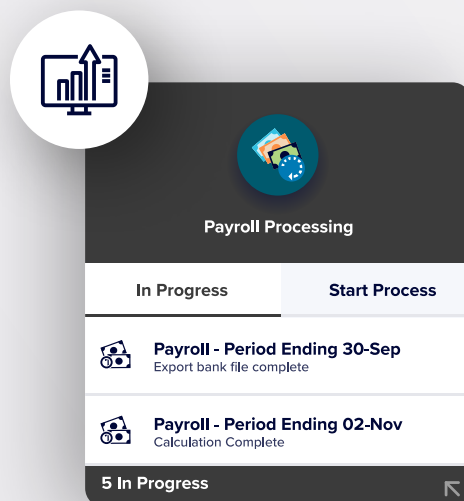

## Integrated planning and reporting

Simplify strategic and operational planning, reporting and analysis with a solution that aligns with the integrated planning and reporting framework.

## Long-term financial planning

Plan effectively, measure progress against key performance indicators and report results to ensure organisational activities are transparent, accountable to the community and supports the long-term financial plan.

ONEGOVERNMENT

# Financial management

## General ledger

Track, analyse and report up-to-date financial information from across the organisation with a flexible, integrated multi-ledger and multi-chart of accounts.

## Budgeting and forecasting

Deliver unified and integrated driver-based budgeting and forecasting that links to the strategic goals of your government department.

## Expense management

Take control of spend, automate expense management and ensure greater policy compliance.

## Asset accounting

From acquisition and depreciation to revaluation and disposal, accurately capture, track and report on the lifecycle costs and valuations of your fixed assets.

## Project accounting

Manage accurate project budgets and billing throughout project lifecycles and easily review financial performance for any single project.

## Payroll processing

Reduce the time and risk involved in payroll processing by automating the entire process with an integrated payroll solution that complies with all current legislated reporting requirements in Australia, New Zealand, United Kingdom and Papua New Guinea.

## Grants management

Manage every step in the grants process, from sourcing to reporting, and provide visibility across your entire grants portfolio, whether it be acquiring grants or distributing grant funds.

ONEGOVERNMENT

# Procurement and inventory management

## Contract and contractor management

Manage the full contract lifecycle and collaborate with suppliers while strengthening compliance and reducing risk. Keep supplier information and contracts accurate and produce detailed contract KPI and financial reports. Support for all types of contracts including materials, services and construction, both lump sum and schedule of rates.

## Source to contract

Identify, evaluate and engage suppliers for all your procurement needs with comprehensive RFx management tools for highly configurable approaches to market.

## Procure to pay

Streamline the entire procure-to-pay process by automating requisitioning, authorise, purchasing, receiving and payment processing.

## Inventory management

Accurately track and manage your inventory with automated order processing and replenishment and support for multi-location inventory management.

ONEGOVERNMENT

# Human resource management

## Organisation management

Optimise workforce planning with visual tools and embedded analytics that provide actionable insights into your current workforce. Identify critical gaps and develop workforce strategies that align with and support your government department's strategic plan.

## Employee lifecycle management

Manage the entire employee lifecycle from headcount and cost budgeting and approval through recruitment, onboarding, performance management, learning and succession.

## Learning and training

Manage every aspect of your organisation's learning and development programs and easily tailor training plans to each employee's career development and succession plans.

## Workforce management

Support a modern workforce and manage all aspects of employment including positions, time and attendance, leave and pay.

ONEGOVERNMENT

# Project lifecycle management

## Budget bid submission

Capture budget bid submissions and take initiatives through rigorous investment selection, scoring, ranking and prioritisation to realise project goals.

## Investment prioritisation and optimisation

Prioritise project and capital work candidates and optimise budgeting and sources of funding options for a range of long-term financial scenarios.

## Project delivery

Develop and maintain project and program plans, and work breakdown structures within an interactive Gantt chart.

## Portfolio, programme and project management

Manage whole-of-life portfolio, programme and project processes with a global methodology-based solution. Adopt best practice guidelines including PRINCE2, PMBOK, MoP and MSP to ensure successful project delivery.

## Project cashflow and forecast management

Manage projects to budget, track costs and expenses in real-time, and ensure robust cost controls are in place to avoid budget overruns.

ONEGOVERNMENT

# Enterprise asset management

## IIMM and ISO55000

Align with industry best practices including IIMM and ISO 55000x by optimising the lifecycle performance of assets in a single, integrated solution.

## Asset management

Manage the performance of your assets with full visibility into cost, utilisation and performance of all government assets including:

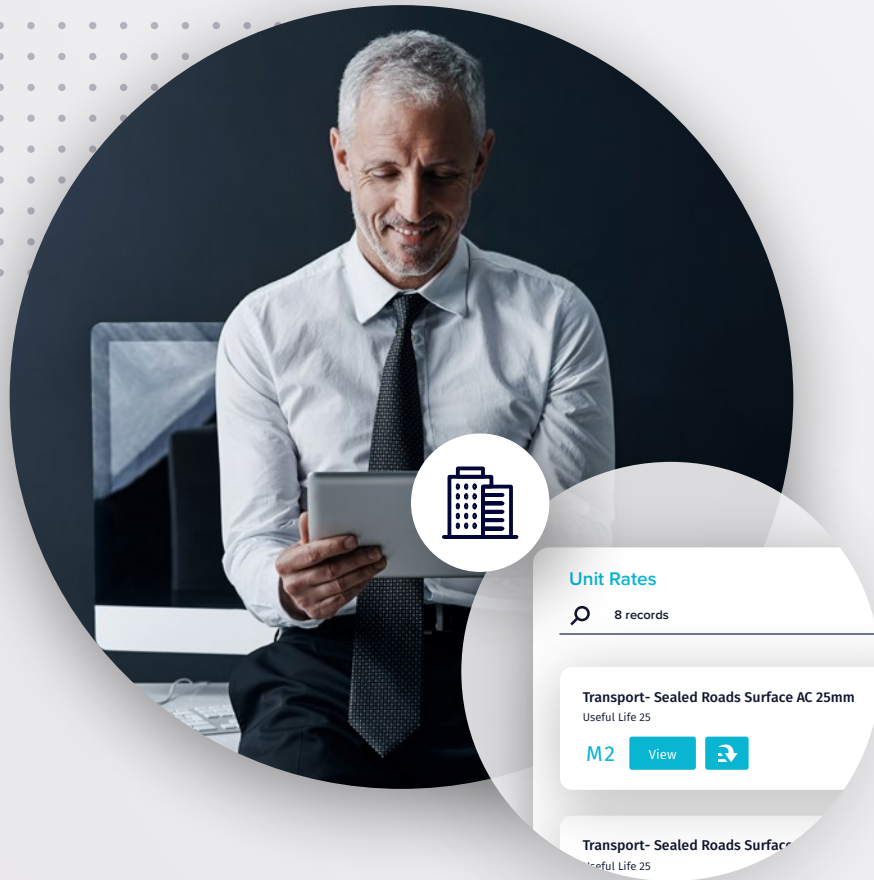

- Infrastructure assets such as roads and water
- Parks and open space
- Buildings and facilities
- Plant and fleet
- Mechanical and electrical assets

## Work management

Manage all types of work, including planned inspections and scheduled maintenance as well as reactive work, defect management, and optimise work scheduling and utilisation.

## Field mobile

Enable field teams to process work orders, capture asset data, inspect assets and raise defects on any device in the field, in both connected and disconnected environments.

ONEGOVERNMENT

# Strategic asset management

## Prediction modelling based on condition, capacity and functionality

Understand the lifecycle costs of your assets, including renewal, maintenance, upgrade and operating costs.

## Optimised treatment planning

Predict asset maintenance costs and treatments required to achieve required level of service.

## Revaluations

Determine remaining life of assets by applying degradation patterns at a component level and perform revaluations based on unit rates.

## ISO31000 risk management

Incorporate a risk management approach and make informed, evidence-based asset investment decisions that are prioritised based on asset criticality and risk.

ONEGOVERNMENT

# Document and records management

## Attachment management

Automatically capture and store any type of document or attachment and improve access to information across the organisation.

## Document management

Integrate every record and information asset across your government department with a unified content management solution that enables instant searchability, organisation-wide collaboration and industry-standard compliance.

## Retention and disposal

Automate the retention and disposal of records and documents and comply with government-level records management standards.

## Meetings

Streamline the capture and distribution of meeting and agenda documents.

## Microsoft 365 integration

Enable employees to continue to use the applications they are familiar with via Microsoft 365 integration.

ONEGOVERNMENT

# Spatial management

## GIS integration

Transform data into maps and turn insight into action, with integrated GIS and embedded mapping. Gain a new perspective on your properties, assets and infrastructure to better visualise and deeply understand complex information.

Empower more users to interact with your information and drive decisions and deploy spatial information to the general public.

## Web-based spatial viewing

Provide web based access to spatial information for the workforce and customers in an easy-to-use but powerful spatial viewing platform.

# Solution enablers

## Business analytics

Analyse operational and strategic information and present this in reports and dashboards using a range of visualisation tools such as charts, tables, word clouds, slicers, media and more.

## Business process automation

Build best practice into your everyday processes. Automate simple tasks and sophisticated processes with customisable clocks, workflows and approvals.

## Digital forms

Streamline and automate the collection of information from suppliers, customers, employees and other stakeholders with integrated forms.

## Interactions and correspondence

Create a 360 degree view of all customer interactions. Simplify your communications with powerful interactions tools that links each correspondence to a customer.

## Digital branding

Standardise digital stationery across your business to produce recruitment letters and statements seamlessly.

## Portals

Streamline internal and external interactions with your government department. Access a range of online portals including, Customer, Supplier, Recruitment, Contractor, Volunteer, Employee, Contractor and Tenderer

# Consulting services

From implementation to transformation, get the consulting services and support you need to ensure continued success.

Work shoulder-to-shoulder with experienced consultants who are aligned to your industry and have instant access to the latest TechnologyOne software. Our consulting team has a proven implementation methodology and track record of project delivery, ensuring a seamless implementation and onboarding experience in the lead up to 'go live'.

Access ongoing consulting services to operate, maintain and optimise your solution. Our Application Managed Services (AMS) team will assign you with a dedicated Service Delivery Manager so you can keep pace with enhancements and leverage a best practice approach.

# Support

Access self-help options, collaborate with others, find answers to questions and manage your support cases in our online Customer Community. Our global support teams take a collaborative approach to ensure your success, engaging with you through multiple channels to ensure you receive an exceptional support experience.

# Training and resources

Gain the knowledge to succeed and work more efficiently in your day-to-day role. Led by our expert consultants, our training courses will teach you new skills and helpful tips and tricks. You can also access hundreds of online resources via the TechnologyOne University, so you can learn at your own pace.

THE TECHNOLOGYONE difference

# Power of One

**One vision. One vendor.  
One code-line. One experience.**

Making life simple is at the heart of what we do. We take complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solutions to guarantee your long-term success.

THE TECHNOLOGYONE difference

# SaaS Platform

**Security. Reliability. Accessibility.**

We've spent hundreds of millions of dollars building the world's most trusted SaaS ERP solution that's secure, reliable and efficient. Our multi-tenanted SaaS solution has deep layers of security and the highest level of certification at every layer.
